

Saving you money on OEM spares...

Reverse Engineering Service —
Worldwide Engineering are excited to announce our first class reverse engineering service: helping you to save money on OEM spares with our bespoke reverse engineering and machining facilities of critical production parts.

Our Machining Standards

- Your parts will be collected by us within an agreed timescale.
- The parts will be assessed for material identification.
- Our detailed report will be issued to you within 48 hours or sooner if required.
- Your machined part will then be manufactured and delivered back by the agreed delivery date.
